Allevo Koodai
Web interface for SAP

Allevo by Kern AG
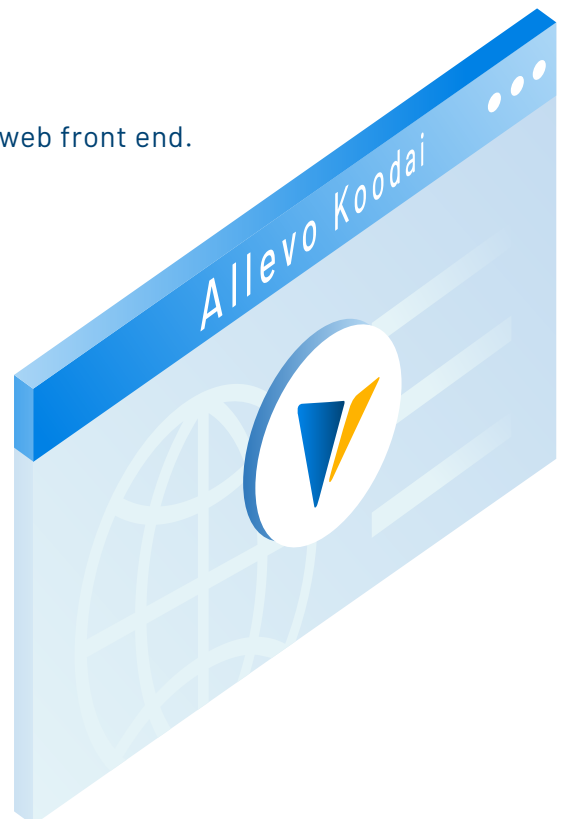

Work SAP-Compliant with an Intuitive Web Frontend

With Allevo Koodai, experience a user-friendly web interface that seamlessly communicates bidirectionally with SAP. This allows you to work in full compliance with SAP standards without needing to access SAP directly.

- Make your SAP processes accessible to many users.

- Create a customized dashboard for the user interface.

- Integrate your Excel sheets, such as specialist planning.

- Benefit from the ability to create your own columns with graphics and formulas.

- Use the formula function to plan columns.

- Define your own user views.

- Work efficiently thanks to fast performance.

- As an Allevo customer, you can easily switch to the web front end.
